

Project Scoping Stage

Evidence Base
This is gathered from the national and international literature and evidence base.

Stakeholder Engagement
HIQA convene an Advisory Group and run focus groups and a public consultation at the start of the project.

Findings from the Evidence Base and Stakeholder Engagement **are themed** to draft the standards.

Advisory Group Input

Project Development Stage

The draft standards are made available for **public consultation** and **focus groups** are held with certain stakeholder groups.

Advisory Group Input

Project Approval Stage

The draft standards go through internal HIQA approval processes and are sent for **Ministerial approval**. Once received, they are published with the implementation support material and guidance.

Advisory Group Input
