Good morning David

Attached this morning's Covid tracker based on mandatory NF02 notifications.

As you know – registered providers are only mandated to report confirmed outbreaks with 72 hours.

On Monday, we will be setting up the Infection Control hub to support providers - I will be asking them to also inform us of suspected cases which will in turn improve our ability to support the service and provide live data.

In looking at the HIQA: HSE pathway

If you find this information beneficial – can you include this within the process.

Regards

Mary
