Hi Noel.
The infection control team were on site today.
Unfortunately [REDACTED] a suspect case.

All plans are on hold for now until the Outbreak Control team have a teleconference this pm .
I will keep you posted.

Thanking you,
Regards,

[REDACTED]

Subject: re cohort plan

Hi Noel and John,

At our OCT meeting yesterday it was proposed to reconfigure the environment for [REDACTED] and [REDACTED]. The plan would be to create a 31 bedded Covid Unit – a significant cohorting plan

Essentially the proposal involves opening the door between [REDACTED] and [REDACTED], incorporate rooms [REDACTED] [REDACTED] to create a larger Covid Unit [REDACTED]. A new door would then be inserted [REDACTED]

This would leave [REDACTED] as a [REDACTED] bedded unit – at present we have 3 close contacts in room 2 but all of these residents tested negative on Friday 17/4/20.

Infection control team were on site yesterday and they also recommended that the public toilet would be converted into a sluice.

Please advise on this process.

Thanking you,
Regards,

[REDACTED]
