Subject: Re [REDACTED] staffing attention Sheila
Date: Monday 27 April 2020 13:18:41

Dear Sheila,

We are getting results in today from blanket testing of our staff.

It appears that there will be a lot of staff told to isolate from last Thursday for 14 days and we will have staffing issues as a result. We have staff returning from isolation but may be stretched thin over the 14 days. We have agency staff limited amount available

Can you please advise if there are [REDACTED] being deployed in these cases.
