

Public consultation feedback form

10 March 2021

The Health Information and Quality Authority is holding a public consultation to give people an opportunity to provide feedback on the draft standards. Your views are very important to us, and we will carefully assess all feedback received and use it to help develop the final standards.

The standards and a related statement of outcomes document (a summary of the responses) will be published once the standards have been approved.

Please note: the focus for this consultation is the content and structure of the draft standards. The final design and layout of the standards will be developed after the public consultation.

We would like your feedback on each of the sections in the document. There are also some general questions about the overall document. For each comment you make, it would help us if you provided the section and page number your comment relates to. We welcome responses to all questions as well as any additional general comments you would like to make.

The closing date for the public consultation is 5pm on 21 April 2021.

2. Your feedback on the draft standards

In this section, we would like to find out what you think of the content of the Draft National Standards for Children’s Social Services. This section focuses on the four principles, standard statements and features presented in the draft standards. The questions in this section are not intended in any way to limit your feedback, and other comments relating to the draft national standards are welcome.

The draft standards are underpinned by four principles:

- a human rights-based approach
- safety and wellbeing
- responsiveness
- accountability

These principles, once finalised, will be used as HIQA’s standards development framework, instead of the eight-theme framework which HIQA has used to develop standards since 2012. Taken together, the principles, standard statements, and the features of a good service, provide a common language to describe what high-quality, safe, consistent and coordinated children’s social services should look like.

For more information on these principles, see Section 4 of the draft standards document.

2.1 Please provide feedback on the four principles and how they will apply in practice:

Please consider the following questions as part of your review of the draft standards:

- Do you think all important areas have been covered in each standard statement or are there any areas that should be included or excluded?
- Are the features listed sufficient to assist staff working in children’s social services to meet the Draft National Standards?

2.2 Please provide your feedback on the standard statements and features set out under Principle 1: A Human Rights-based Approach
