

Evidence gap identifier	INEWS 6
Brief title	Clinical effectiveness of acute healthcare early warning systems for adults (chart design)
Report	<u>The Irish National Early Warning System (INEWS)</u>
Date identified	19/02/2018
Identified by	CICER
Supported by	Systematic review
Population	Adults
Intervention	Early warning systems (EWSs) (chart design)
Comparator	Other EWSs
Outcome(s)	Chart design acceptability, diagnostic accuracy, and effectiveness
Setting	Acute healthcare
Study design	Effectiveness studies, development and validation studies
Further information	Further research is warranted into optimal EWS chart designs, in both paper-based and electronic systems.
