

Evidence gap identifier	UG 1
Brief title	Standardised and explicit guidance on updating clinical guidelines
Report	<u>Updating processes for guidelines</u>
Date identified	27/10/2021
Identified by	CICER
Supported by	Systematic review
Population	N/A
Intervention	Interest: Standardised guidance (processes, methods, and frameworks) for updating clinical guidelines
Comparator	Non-standardised updated approaches
Outcome(s)	Standardised and explicit guidance
Setting	National and international clinical guideline development
Study design	Methodological research (e.g., international consensus)
Further information	Terminology, definitions, methods used to determine if an update is needed, and prioritising guideline updates were not standardised and in instances not reported. Further, details on resources time, funding, personnel, and responsibility for each stage of the updating process, were poorly described.
